

SLAI Coin - Whitepaper

1. Introduction

SLAI Coin is a revolutionary blockchain-powered digital currency designed to transform the dental industry by integrating AI, Web3 technologies, and decentralized finance (DeFi). Our mission is to create a seamless digital ecosystem where professionals, investors, and patients can engage in a transparent and efficient marketplace for dental innovation.

2. Tokenomics

- Total Supply: 1 Billion SLAI
- 70% Allocated to the Community
- 30% Allocated to Founders
- Staking and rewards program included

3. Roadmap

- Q1 2025: Development & Partnerships
- Q2 2025: Token Launch & Marketplace Beta
- Q3 2025: Expansion & Staking Implementation
- Q4 2025: Global Adoption & Multichain Integration

4. Staking & Governance

SLAI Coin provides staking opportunities where users can lock their assets to earn rewards. Additionally, governance mechanisms allow holders to participate in voting on project decisions.

5. Security & Transparency

SLAI Coin is built on a secure blockchain network, ensuring transparency and immutability of transactions. All smart contracts undergo thorough audits to maintain ecosystem trust.

6. Conclusion

SLAI Coin is a groundbreaking initiative that merges AI, Web3, and blockchain technology to revolutionize digital dentistry. By leveraging decentralized finance and governance, SLAI Coin creates a transparent, efficient, and inclusive marketplace for all stakeholders.
